**To Whom It May Concern**

We have known Rafik Hussein since 2002, when he first started his "Every Child's Right to Play" campaign.

It has been a pleasure for our company to be associated with Rafik's unpaid charity work. We have donated lots of Special Needs Outdoor Playground Equipment and installed over one hundred Rides for disadvantaged people to enjoy play via Raf-Fixed-It "Dreams Come True".

This would not have been possible without the will power of Rafik, and despite difficulties, his willingness to help disabled children, by pushing council & local authority to allow Every Child the Right to Play, with rides like wheelchair roundabout, ability swings, wheelchair trampoline, etc. etc...

As a direct result of Rafik's 20 year campaign, we have seen play areas, parks, schools and housing estates having the above.

Not only has Rafik convinced companies like us, to introduce this ability Rides, but has also reached out to manufactures & designers to have an input in this area, which has been forgotten by the society as a whole.

I highly recommend Rafik Hussein for the highest possible award to celebrate his 40 years of lifetime commitment for the forgotten people in our society.
